### A few days to go

During this busy stretch of the year, I know all of us are balancing many priorities. Even with our hectic schedules, we are within reach of our enterprise goal for timely completion of annual Ethics & Compliance training. But there is still some work left to do.

If you have not yet completed all of your assigned courses, please be sure to do so before the upcoming September 30<sup>th</sup> deadline. You can view which courses you have been assigned and are still incomplete by visiting: <https://cognizant-console.lrn.com/learn/queue>.

Additionally, this year you have an opportunity to help shape the priorities of the Ethics & Compliance program and help make Cognizant an even better place to work by responding to the inaugural Ethics & Integrity Culture Survey. Remember, it is completely anonymous, only takes about 10 minutes, and your feedback matters! [Click here to start the survey](#).

Thank you for your commitment to doing the right thing.
