

RESUME

Name : MD KAMRAN UDDIN

EDUCATION

Title of the Degree with Branch	College/University	Year of Passing
BACHELOR OF TECHNOLOGY IN ELECTRONICS & INSTRUMENTATION	Future Institute of Engineering & Management, Maulana Abul Kalam Azad University of Technology (MAKAUT)	2016
XII	The Frank Anthony Public School	2012
X	The Park English School	2010

OTHER SOFTWARE COURSES/CERTIFICATION COMPLETED THROUGH COGNIZANT ACADEMY: (if any)

1. ADM - Angular 11 - Knowledge Based Assessment [201 - Intermediate]
2. Java Security Fundamentals [101-BASICS]
3. Java Advanced Secure Coding [201-Intermediate]
4. ADM Calendaria Web Angular Training [301 - Advanced]
5. ADM Calendaria Web React Training [301 - Advanced]
6. [NEW] Ultimate AWS Certified Cloud Practitioner CLF-C02 (Udemy)
7. AWS Certified Cloud Practitioner Practice Exams CLF-C02 (Udemy)
8. Generative AI_MDU - [101-BASICS]
9. Generative AI Fundamentals - Knowledge Based Assessment [101 - basics]
10. ADM - Gen AI Intermediate Voyager Cognizant Suite of Platforms and Partner offerings Quiz [101-Basics]
11. ChatGPT: Complete ChatGPT Course For Work 2023 (Ethically)
12. Executive Briefing: Artificial Intelligence (AI) + ChatGPT
13. Insurance Industry - KNOWLEDGE BASED ASSESSMENT [101-BASICS]
14. Property and Casualty - P&C - Insurance - KNOWLEDGE BASED ASSESSMENT [201-INTERMEDIATE]

No	Name of Institution (e.g. NIIT, APTECH, SSI Etc)	Diploma or Certificate	Year of Completion

TECHNICAL SKILLS

Operating System	Windows 7/8/10/11
Programming Languages	Java, HTML, CSS, JavaScript, Angular, Spring Boot, Rest API, React, JSP, Basic Python, Unix
Databases & Tools	Oracle SQL
Other Utilities	Git, Pivotal Cloud Foundry (PCF), Adobe Experience Manager (AEM), Alfresco, Camunda, Postman
Location	Hyderabad

SUMMARY:

Experienced Technical Lead with over 7.1 years of experience in developing, designing, integrating, and enhancing client applications. Applying an in-depth understanding of business and client requirements to streamline processes, resulting in increased automation and operational efficiency.

Possess combined knowledge of Java, Spring Boot, and frontend technologies like HTML, CSS, JavaScript, and Angular, along with exposure to CMS tools like AEM and Alfresco. Involved in trainings to upskill myself in Angular Advanced and React concepts, coupled with gaining traction in Cloud technologies via self-learning. Completed one Chatbot implementation using Yellow.ai. Acquired foundational learning in Generative AI and started exploring more in this expanding domain. Worked on Jira, Bitbucket and GitLab, as well as DevOps tools like Git and Jenkins.

Manage multiple projects simultaneously. Learn and apply new technologies quickly. Team player with good interpersonal skills. Excellent communication, presentation, analytical, and problem-solving skills with the ability to effectively interact with the end user and resolve their concerns. Able to prioritize effectively and achieve objectives within established timelines.

PROJECT PROFILE:

PROJECT 1 – Proposed/Current

Project Title	Evolution Application Development
Duration	12/01/2023 – On-going
Location	Hyderabad
Operating Systems	Windows 10
Programming Languages	Java, Spring Boot

PROJECT DESCRIPTION:

Evolution application can perform New Business, Underwriting, MTA/Endorsements, Renewals, and Reporting functions. Evolution platform is an underwriting and rating application for non-life products. Predominately used for underwriting (Quote, NB (New Business), Renewals, MTA (Mid-Term Adjustment), and Reporting.

Application caters to HNI (High Net Worth Individuals) and MHNI (Mid-High Net Worth Individuals). This application has a holistic view of activity across all products, including 'upcoming renewals'. 'Upcoming Renewals' functionality feature helps to avoid policy issuance delays or policy lapses during renewal.

CLIENT DESCRIPTION: Reputed Insurance Client in the United States

ROLES AND RESPONSIBILITIES:

Undergone Knowledge Transformation to understand the project flow. Setting up the infrastructure of the application. Interacted with Senior Leads for requirement understanding and implementation. Upgrading the applications from Java 8 to Java 17. Effective analysis of the task assigned and documenting the same. Code reviews with fellow team members before pushing the code to lower environments. Actively participate in daily calls and important meetings. Followed standards of software development and other codes of conduct, as applicable.

PROJECT 2

Project Title	Account Services Application Development
Duration	04/03/2023 – 10/31/2023
Location	Hyderabad
Operating Systems	Windows 10
Programming Languages	Java, JSP, HTML, CSS, JavaScript, Angular

PROJECT DESCRIPTION:

Account Services Application enables the business to maintain and modify the accounts for different IBD's (Introducing Broker Dealers). This application provides IBD's with the ability to open new accounts, update customer account information, and manage existing accounts. To summarize, Account Services mainly deals with opening an account, inquire an account, modifying account details, workflow, and account maintenance.

CLIENT DESCRIPTION: Reputed Client in the United States

ROLES AND RESPONSIBILITIES:

Interacted with the onsite coordinator/clients for requirement gathering and effective analysis. Designed and developed the UI screens as per the client requirements. Analyzed and resolved functional issues as reported by QA. Worked on Production Incidents and came up with solutions to address them. Proposed design changes for some functionalities for a better user experience. Helped the team with respect to different modules and aspects of the project. Cross-skilled in different technologies as per necessity. Followed standards of software development and other codes of conduct, as applicable.

PROJECT 3

Project Title	Horizon Application Development
Duration	10/14/2021 – 01/27/2023
Location	Hyderabad
Operating Systems	Windows 10
Programming Languages	Angular, Java, Spring Boot, HTML, CSS, JavaScript, SQL

PROJECT DESCRIPTION:

Horizon Application enables the business to remain in compliance with applicable laws, rules, and regulations. This application records and tracks regulatory change alerts to evidence traceability and ensures that the client is aware of all new and evolving regulatory obligations globally with a consistent and robust approach to reviewing and completing an assessment of these alerts.

CLIENT DESCRIPTION: Reputed Bank in the United States

ROLES AND RESPONSIBILITIES:

Setting up the infrastructure of the application. Developed and designed the UI screens as per the client requirements. Implemented Rest APIs for backend development. Analyzed and resolved functional issues as reported by QA. Worked on design changes for some functionalities to enhance the user experience. Worked on fixing QA and Production issues. Involved in Production Releases with the Deployment Team. Gave Application Demo to the Business Users and worked on their feedback for a smooth rollout to Production. Helped the team with respect to different modules and aspects of the project. Cross-skilled in different technologies as per necessity. Followed standards of software development and other codes of conduct, as applicable.

PROJECT 4

Project Title	NetApp Product Globalization
Duration	09/22/2020 – 09/27/2021
Location	Hyderabad
Operating Systems	Windows 8
Programming Languages	Angular, Python, HTML, CSS

PROJECT DESCRIPTION:

The NetApp client boasts a variety of products/applications to be used by other companies and its own users. We are working towards the Internationalization of these products using Angular and implementing other functionalities as per the client requirements.

CLIENT DESCRIPTION: Reputed Client in the United States

ROLES AND RESPONSIBILITIES:

Undergone necessary KT related to the different modules and aspects of the project. Redesigned and enhanced the UI as per the client requirements. Analyzed and resolved functional issues as reported by QA. Worked on Internationalization (i18n) fixes in the application. Modified the

Jenkins scripts for generating application builds as per the production releases. Took trainings for upskilling in Python and Cloud. Followed standards of software development and other codes of conduct, as applicable.

PROJECT 5

Project Title	Documentum to Alfresco Migration
Duration	01/06/2020 – 08/31/2020
Location	Hyderabad
Operating Systems	Windows 7
Programming Languages	Java, HTML, CSS, JavaScript

PROJECT DESCRIPTION:

The BHGE QMS Library and Legal Library are two applications hosted within the GE Power Documentum platform. The applications that are in Documentum are to be replaced by rolling out a new BH QMS/Legal Library leveraging Alfresco as an ECM/DMS solution.

CLIENT DESCRIPTION: Reputed Client in the United States

ROLES AND RESPONSIBILITIES:

Interacted with the onsite coordinator/clients for requirement gathering and effective analysis. Developed smart folder template. Customized the upload and edit forms. Developed custom mail notifications for workflows. Implemented custom code for modifying hyperlinks in Word and PDF files. Developed Document Subscription feature. Performed UAT testing of the migrated application. Gave Application Training to the Users/Customers.

PROJECT 6

Project Title	Website Development and Authoring
Duration	03/15/2019 – 12/31/2019
Location	Hyderabad
Operating Systems	Windows 7
Programming Languages	Adobe Experience Manager (AEM), HTML, CSS

PROJECT DESCRIPTION:

Developing AEM components that can be used in building the different portfolio websites, authoring the web pages, and enhancing the already-developed components according to the client's requirements.

CLIENT DESCRIPTION: Reputed Client in the United States

ROLES AND RESPONSIBILITIES:

Undergone the necessary KT for understanding the project flow. Worked on Enhancements and bug fixes in the AEM components. Worked on the migration from AEM 6.2 to AEM 6.4. Tested the existing AEM components to check their compatibility in the AEM 6.4 environment. Research and Development for migrating from AEM 6.2 to AEM 6.4.

PROJECT 7

Project Title	Application Modernization
Duration	01/11/2018 – 01/11/2019
Location	Hyderabad
Operating Systems	Windows 7
Programming Languages	Java, JSP, SQL, Unix

PROJECT DESCRIPTION:

There are a suite of different applications catering to business users in the HR and Financial domains. The applications help the internal users perform various functions at different levels of competency.

CLIENT DESCRIPTION: Reputed Logistics Client in the United States

ROLES AND RESPONSIBILITIES:

Acquired Domain knowledge for understanding the project overview and specifications. Took Knowledge Transfer (KT) on HR and Finance applications in the project. Worked on code analysis and fixes for solving the issues reported by the end users. Implemented PDF box changes for HR applications. Prepared a POC for application cloud migration. Worked on Pivotal Cloud Foundry (PCF) cloud native analysis by deploying a simple Spring Boot application to PCF.

PROJECT 8

Project Title	AIX to Linux Migration
Duration	06/01/2017 – 10/31/2017
Location	Hyderabad
Operating Systems	Windows 7
Programming Languages	DataStage ETL, SQL, Unix

PROJECT DESCRIPTION:

The process consisted of the migration of groups, which consisted of DataStage codes, Unix scripts, Config files, and SQLs, from the UNIX server to the LINUX server and, at the same time, upgrading from the DataStage 8.1 version to the DataStage 11.3 version.

CLIENT DESCRIPTION: Reputed Bank in the United Kingdom

ROLES AND RESPONSIBILITIES:

Analyzed the inbound groups to be migrated. Consolidated the prerequisites for inbound groups for relevant changes. Analyzed SQL scripts for taking out the source and target tables. Learned and applied technologies like Data Stage and Control-M to the project. Undergone Knowledge Transformation to understand the project flow. Participated in all the meetings with Business users.
