ADM Global Generative AI (GenAI) Enablement
Empowering Innovation with Intelligence

Hari Parameswaran
ADM Global Delivery Lead

At Cognizant, we are dedicated to harnessing the power of cutting-edge technology to drive innovation and efficiency.

ADM Global GenAI Enablement is designed to augment our capabilities and empower our teams to achieve greater heights. By adopting this learning program, we are embracing the future of intelligent automation and data-driven decision-making.

Join us in the exciting journey of revolutionizing the way we operate and achieve greater heights of success together.

Ravi Kumar
CEO - Cognizant

"Given GenAI's potential to create a new wave of opportunities for us, we expect to invest about $1 billion over the next three years in strengthening our GenAI capabilities.
This investment includes equipping you with the skills to stay on top of this fast-evolving technology
Please commit to building your gen AI knowledge and contributing your thinking on how best to apply this amazing technology to help our clients succeed and differentiate Cognizant."

Kathy Diaz
CPO - Cognizant

"GenAI is not only a technology, but also a mindset – one about imagining new possibilities, experimenting with new ideas, and collaborating with others.

I hope you will join me in embracing and making the most of this opportunity.

I encourage you to keep learning and growing your GenAi skills. Whether you are a beginner or an expert, you will find something that suits your needs and interests."

ADM Global GenAI Enablement:

- Step1 GenAI Fundamentals - The program is designed to help associates master the foundational knowledge and skills to navigate GenAI technology.

- Completion of the fundamentals program is critical for GenAI specialization trainings planned in 2024

This program will equip associates with:

- Foundational understanding of GenAI and its key concepts.
- Real-world applications of GenAI within the organization and industry.
- Latest advancements in the GenAI technologies.

What's in it for you?
